525 MILES
OF THE
UNION PACIFIC RAILROAD
Running West from Omaha
ACROSS THE CONTINENT,
ARE NOW COMPLETED.

THIS BRINGS THE LINE TO THE EASTERN BASE of the Rocky Mountains and it is expected that the track will be laid thirty miles further to Evans Pass the highest point on the road by January The maximum grade from the foot of the mountains to the summit is but eighty feet to the mile while that of many eastern roads is over one hundred Work in the rock cuttings on the western slope will continue through the winter and there is now no reason to doubt that the entire grand line to the Pacific will be open for business in 18[illegible]

The means provided for the construction of this Great National Work are ample The United States grants its Six Per Cent Bonds at the rate of from $16 000 to $48 000 per mile for which it takes a *second lien* as security and receives payment to a large if not to the full extent of its claim in services These bonds are issued as each twenty mile section is finished and after it has been examined by the United States Commissioners and pronounced to be in all respects a first class road thoroughly supplied with depots repair shops stations and all the necessary rolling stock and other equipments

The United States also makes a donation of 12 800 acres of land to the mile which will be a source of large revenue to the Company Much of this land in the Platte Valley is among the most fertile in the world and other large portions are covered with heavy pine forests and abound in coal of the best quality

The Company is also authorized to issue its own First Mortgage Bonds to an amount equal to the issue of the Government and no more Hon E D Morgan and Hon Oakes Ames are Trustees for the Bondholders and deliver the bonds to the Company only as the work progresses so that they always represent an actual and productive value

The authorized capital of the Company is One Hundred Million Dollars of which over five millions have been paid in upon the work already done

EARNINGS OF THE COMPANY.

At present the profits of the Company are derived only from its local traffic but this is already much more than sufficient to pay the interest on all the Bonds the Company can issue if not another mile were built It is not doubted that when the road is completed the through traffic of the only line connecting the Atlantic and Pacific States will be large beyond precedent and as there will be no competition it can always be done at profitable rates

It will be noticed that the Union Pacific Railroad is in fact a *Government Work* built under the supervision of Government officers and to a large extent with Government money and that its bonds are issued under Government direction It is believed that no similar security is so carefully guarded and certainly no other is based upon a larger or more valuable property As the Company's

FIRST MORTGAGE BONDS

are offered for the present at 95 CENTS ON THE DOLLAR, IN U S CURRENCY they are the cheapest security in the market being more than 15 per cent lower than U S Stocks They pay

TURBINE WATER WHEEL!

OF WHICH THE ABOVE IS AN ILLUSTRATION has FOUR SETS OF BUCKETS AND USES THREE FOURTHS OF THE WATER TWICE

The old high priced unequaled and unrivalled wheel has been PLAYED OUT by a fair working trial made by Mr H Kelly at his saw mill and the public can see what he says as to the capacity of the two wheels in the following testimonial over his own signature

MR H W SHIPLEY Sir In reply to your inquiry as to how I like your Pacific Turbine Wheel I have to say that I have used one over about three Leffel wheels —10 11 and 15 inch diameters When I substituted your 15 inch wheel for the 13 inch Leffell wheel though unfinished it worked the machinery [illegible] using 52 ft of water per minute more than the 13 inch Leffell At your request I subsequently took your wheel out that it might be finished and then I put in a 15 inch Leffel but it gave no better power than yours while it used 52 cubic feet more water per minute After some months I replaced your wheel and am still using it with the most satisfactory results I have subjected it to some severe tests For instance while running the circular saw in a log which squared 15 inches I added the planer with a 9 inch knife cutting from one eighth to one-fourth of an inch depth without in the least slacking the speed After thorough tests of both wheels I am satisfied that your wheel with gates one-eighth of an inch open gives as much power as the Leffell with gates one-third open At half gate your wheel gives double the power of the Leffel at half gate At full gate, the power of yours exceeds that of the Leffel by from ten to twelve per cent At quarter gate, the Leffel holds no comparison with yours at quarter gate

N B Mr Shipley was not present at either of the trials of his wheel he being sick at the first and absent from the State at the second trial

A Sound Currency

Few of our readers have forgotten the currency we had a few years ago of little value of which none but the money changers could judge the very best of which would hardly pass at all in our country [illegible] war by rendering necessary the issue of greenbacks and the establishment of the National Banking System has driven from circulation this sort of money and substituted others which pass at the same value as greenbacks everywhere in the land and which are not only sure but that there can be no loss by the man who receives them We always considered it a very great incidental benefit of the war putting down as the law effectually did the State Banking Systems of the States—others evils as that of Pennsylvania being the nurseries of fraud and substituting a system suitable for the nation

The opportunities for fraudulent banking or [illegible] have been cut off and those wholesale economists they are making a vigorous effort to destroy the whole system that the wildcat red dog [illegible] creek and other shinplaster currency of former days may be introduced and the stale cries of monopoly special privileges &c are revived for the purpose of misleading the simple for all others are aware that our National Banking system is as free as ever gambling was in San Francisco where the keeper of the rondo table continually announced Any man can make a bank any one can win a hatful who has luck and knows how As a cry against corporations well or ill founded is generally to some extent popular it is not improbable the leaders of the Democratic party may incorporate an assault against this system in their next platform as many of its presses are already engaged in misrepresenting its provisions and its effects upon the people It would be well for the public to examine carefully before accepting as facts the theories of some of these would be political financiers

They allege for instance that the banks have $340 000 000 of Government bonds deposited as security for the redemption of their notes in greenbacks upon which the Government pays some eighteen millions (gold) of interest annually that this eighteen millions with the premium on gold and the expenses of collecting it in taxes, is really equal to twenty six millions—which they boldly assert the Government we beg pardon the people) pay the banks for nothing all of which would be saved the poor taxpayers by demolishing the National Banks and going back to the old rag mills

Now were these the facts we don't see that money would be saved the taxpayers by the course they propose These $340,000 000 bonds would draw the same interest whilst the tax now paid by the banks would be lost to the treasuries State and National The Controller of the Currency, from the bank reports, states that these institutions pay to the State and Federal Governments *sixteen million dollars* annually in taxes whilst in addition to the bonds deposited they have a permanent reserve of legal tenders in the Treasury of one hundred and fifty million dollars —equivalent to a loan to the nation of five hundred millions one third of it without interest—or to be more exact they receive some twenty five millions in greenbacks, refund sixteen in taxes and net about two per cent on the $300 000 000 they loan the nation

Were these bonds not deposited in the Treasury as security being the private property of those who have become stockholders in the banks they would pay not one cent of taxes, local or national

The report of the State Finance Committee has fully shown that the only plan by which the National currency could be converted into greenbacks viz by requiring the National Banks to retire their notes from circulation and *to accept greenbacks* in place of the bonds they have deposited with Government since it involves two acts of open and flagrant robbery and bad faith on the part of the Government itself viz first, it would involve a violation of the pledge made by the Government in their law providing for the issue of the present greenbacks and national loans that only $400 000 000 greenbacks should in any event be issued and secondly it would be a usurpation of power by the Government to compel the banks as public creditors to take their pay in greenbacks for bonds which by their terms are payable in gold

The whole plan is not only destitute of any element of economy but it is preposterously dishonorable If the Democratic leaders wish to make this the financial issue they show large faith in the gullibility of their followers Whether this faith is justified by the facts we leave them to decide

Fares and Freights on the Pacific Railways

Some days ago Hon E B Washburne introduced a joint resolution to establish a tariff of freights and fares on the Union and Central Pacific Railways The rates are proposed to be limited to double those charged on first class railroads east of the Mississippi This will still allow six cents per mile to be exacted for passenger fares which is certainly high enough under any circumstances These roads have been charging ten to twelve cents per mile! The time has come when the evil should be corrected The remedy is in the hands of Congress these roads are built by the money of the people the companies have received enormous land grants besides the solid cash from the government About 1 000 miles of these government railways are already in operation one of them extending across Nebraska to the Rocky Mountains another across Kansas to the 100th meridian the third one across California into Nevada These roads are already doing a large passenger and freight business independent of their construction account They are paid heavily by the government for carrying the mails troops and military supplies No reason now exists for allowing their managers to fleece the people who have occasion to ride in their cars or send freight over their roads as they are now doing Monopoly speedily degenerates into rapacity and extension unless checked by direct and timely competition or the strong arm of the law In the present case fortunately Congress has the power to restrain extortion and determine the maximum tariff of freights and fares which shall be charged We hope the joint resolution will not be allowed to slumber We cannot see on what ground any disinterested member can oppose it The present exactions are out of all reason and cruelly oppressive The effect of their continuance will be to cripple business to hinder the development of the mineral region to discourage emigration thither and to render the cost of living unnecessarily and immoderately high in the mines and of consequence make the extraction of the precious metals from the ores unprofitable and impossible This rapacious policy on the part of the companies is short sighted and foolish But it is hard to make monopolies understand the error committed by them charging the public They look at the matter from a single standpoint viz To obtain the largest possible sum of money from the people for the worst and least amount of service This is a penny wise and pound foolish principle but it is the universal practice of all unrestrained corporations Let our Western members of Congress take the matter [illegible] hand and correct it The [illegible] of the constituents of every representative from a dozen Western States are interested [illegible] having a reasonable tariff for passenger and freights established on the Union Eastern Division and Central Pacific Railways

The Union Platform.

The resolutions adopted by the Union State Convention fully set forth the principles of the party. They are concise and compact, omitting nothing which, in the present state of political parties it was material to introduce, and containing nothing which ought to have been omitted. In marked contrast with the negative, evasive resolutions of the "Democratic" platform are these clear and outspoken utterances of the Union party. The former are intended to be equivocal, and capable of any interpretation which either the Confederate Democrat or mild Copperhead may choose to give them. The latter misrepresent nothing and leave nothing to inference. The Union party states its positions fully, forcibly and without equivocation. Its first resolution is identical with the first part of the introductory resolution of the National Union Convention of 1864, with the addition of the clause that it is the duty of American citizens "to preserve at the ballot box the fruits of the late war." Thus the Union party declares its steadfast adherence to the principles which it has once fought for, and which it is ready at any time to take arms to maintain. There is no nonsensical allusion to the "time-honored principles," a term which as used by the Copperheads, will signify anything as occasion may require; but the Union party specifically affirms the national doctrines of which it has been the champion against the destructive Democracy. The affirmation that "the work of reconstruction belongs to the legislative department of the Government," is a distinct and emphatic avowal of the position which was assumed by Congress during Mr. Lincoln's Administration and re-affirmed at the first session after the close of the war when Johnson had begun his headlong course of usurpation. To maintain this principle that the work of reconstruction belongs to the national legislature the present Congress was elected. Johnson was the advocate of his own cause before the people, and was repudiated by unexampled majorities. The resolutions of our State Convention show in brief precisely where the Union party stands in reference to all the great questions at issue. No man can truthfully charge upon the party more than is therein affirmed, and no man can question its purpose to maintain every principle which it therein declares for. It has shown its devotion to these principles by the most signal proofs, and will never come short of them.

Unparalleled Effrontery.

The other day we enumerated some of the "fruits of Democracy" as follows: "Nullification, secession, war, a half a million lives lost, an enormous national debt, financial embarrassment," etc., etc. To this the *Herald* attempts an elaborate reply, the greater portion of which is pitiful twaddle which deserves no notice and is too ridiculous to call for refutation. We propose, however, to notice a single point in this two column specimen of "political essay writing." To our statement that nullification is one of the legitimate fruits of Democracy, that paper replies: "South Carolina attempted nullification and the attempt was promptly suppressed by the Democratic Administration of Andrew Jackson." Isn't this effrontery unparalleled? Here is a Copperhead journal boasting that a Democratic President in 1832 "promptly suppressed" nullification in South Carolina! Will it now inform all whom it may concern why it was that when "South Carolina attempted nullification" in 1860–'61 the attempt was not "promptly suppressed by the Democratic Administration" of James Buchanan? Let us look a little into this matter.

In 1832, South Carolina nullified a law of the United States and solemnly declared that should the Federal Government undertake to enforce the law thus nullified, that State would thereupon consider herself no longer a member of the Federal Union. The Governor in his message declared that he should hold himself under obligation to enforce this policy. Gen. Jackson proceeded at once to crush this rebellion, as General Washington had done with reference to the rebellion in Pennsylvania in 1795. In his ever famous proclamation Jackson squarely confronted the position taken by South Carolina, by saying that, "The States severally have *not* retained "their entire sovereignty. The duty imposed on "me to take that the laws be faithfully executed "shall be performed to the extent of the powers "already invested in me by law, or of such others "as the wisdom of Congress shall devise and intrust to me for that purpose, and to warn the "people of South Carolina, who have been "deluded into an opposition to the laws, of the "danger they will incur by obedience to the illegal "and disorganizing ordinance of the Convention." This was Jackson Democracy and Washington Federalism. The doctrines laid down in this proclamation were as decided as any ever propounded by any statesman of the Federal school. They were not "Democratic." In his view of the nature, genius, limitations and powers of our National Government, Jackson was as uncompromising a Federalist as Washington, Hamilton or Marshall. Let us now see what the "Democratic Administration" of James Buchanan did when South Carolina attempted nullification in 1860.

In the early part of November of that year a bill passed the South Carolina Legislature calling a Convention to meet on the 6th of December, with the distinct purpose of secession. Did President Buchanan notify the seceders as General Jackson had done that he would execute the laws against them? Did he warn citizens of South Carolina, as General Jackson had done, "of the danger they would incur by obedience to the illegal ordinances of the convention" which had been called? "I have arrived," said he, "at the conclusion "that no power to coerce into submission a State "which is attempting to withdraw from the "Union, has been delegated to Congress or to any "department of the Federal Government." Will the wise man of the *Herald* explain which is the Democratic doctrine?—whether General Jackson or James Buchanan is to be regarded as its exponent? The documents we have quoted from show a direct conflict of authorities. Was Jackson right when he declared that the Government of the Union had power to coerce a State, or was Buchanan right when he declared that "no such power had been delegated to any department of the Federal Government?" Which of these positions accords with the "time-honored principles?" Happily the editor of the *Herald* has made a record which explains these matters. He pronounced for the Buchanan doctrine in 1864, by declaring (we quote his own words) that "we do most emphatically deny the right of the Government to coerce the obedience of sovereign States." Yet he now has the shamelessness to assert that nullification is not one of the fruits of Democracy, because when South Carolina attempted nullification in 1832, "the attempt was promptly suppressed by Andrew Jackson." If anything can exceed Copperhead impudence there are not many who know or would care to know what it is.

Union Club at Forest Grove

A Union Club has been organized at Forest Grove, Washington county. The officers elected are, President, J. T. Scott; Vice Presidents, E. Walker and D. Boyce; Secretary, J. H. Tongue; Treasurer, A. L. Johnson. The Club adopted several resolutions, the second of which we give:

Resolved, That we owe our existence as a nation to the efforts of the Union party, and as there are still civil commotions in the land, it is the duty of Union men to confirm at the ballot box what they won in the field.

The Union majority at Forest Grove, as well as throughout Washington county, will be increased at the coming election. All are well satisfied with the State nominations.

Union Sentiment in Lane County.

THE STATE NOMINATIONS HIGHLY SATISFACTORY—LOGAN THE STRONGEST MAN IN LANE COUNTY.

A letter from a prominent Union man of Lane county, received by us yesterday, announces that "everybody is highly pleased with Logan's nomination. In this county he is one hundred votes stronger than any other man who could have been named. I think that he will warm the wax in that ex-preacher's ears and make him think that he returned from Europe a little too soon."

A great "horse dinner" was given in London on the 6th February. The bill of fare was about a yard long, and consisted of horseflesh done up in every conceivable and inconceivable style. It reminds one of the bill of fare at the hotel at Cairo, which consisted of baked catfish, boiled catfish, roast catfish, fried catfish, and more catfish.

Beriah says: "Democrats should remember that every additional Democratic vote we gain here is so much aid and comfort to our friends in other States." Certainly, it was so during the rebellion. Every additional Democratic vote in the North was so much aid and comfort to Southern rebels, the "friends" of Northern "Democrats."

While the Penitentiary was at Portland, Democratic State Conventions were always held at Salem. Since that institution has been removed to Salem, the Democratic Conventions are all held at Portland. The reason of this is said to be that it is not thought best to have two representative gatherings of their party in the same place at the same time.

At the late Union State Convention the proxies were comparatively few. There was a much larger attendance of delegates than is usual on such occasions. This is a good augury for the party. More interest is now being shown in completing the party organization and bringing out its full strength than ever before.

Until the recent action of Johnson, there was *no case on record* in the history of the government of a President making an appointment to office and installing the appointee while the Senate was in session, until that body had approved the nomination.

FROM IDAHO.

[From the Idaho City World, March 18.]

A man named John Daniels shot another, named Samuel Wheeler, in Thatcher's saloon, Centerville, on Sunday midnight, with a navy size revolver. The ball entered about an inch below the navel, turned, coursed downward obliquely, and lodged in the right thigh. Wheeler lingered in great agony until midnight of Monday, when he expired. Daniels walked to Placerville after the affair, there concluded to surrender himself, and did so early Monday morning, to Deputy Sheriff Wm. Moloney.

Six inches of snow fell on Saturday night, Sunday morning was clear, and the afternoon was cheerless and windy. More snow on that night, with a slight thaw on Monday; and Monday night there came first rain, then about two inches of snow, and moderated temperature—no frost at night. Yesterday morning a sharp March wind prevailed for an hour, when thawing set in, and the snow was rapidly melted away during the day. The season will be somewhat more backward for mining than our citizens generally expected it would be a fortnight ago, but these late snow falls are all favorable to the miners, for they assure plenty of water.

INDIAN MASSACRE.

[From the Owyhee Avalanche, March 21.]

On Wednesday, the 18th inst., as a Mr. Jarvis, from Boise valley, was bringing a wagon load of vegetables to this place, he was killed by Indians in the canyon between Carson's Ranch, on Reynold's Creek and Fruit's ferry, on Snake river—the same locality where the stage was attacked and three men killed about a year ago. There are but few facts known in relation to this last bloody deed, as there are no living witnesses except the murderers themselves. From a gentleman named McDowell, who was the first to come along afterwards, we learn the following particulars: Mr. Jarvis crossed Snake river in the morning, on the same boat with the stage, which was also coming this way. He had a span of horses and light wagon loaded with potatoes, cabbages, eggs, &c., intended for this market. He followed after the stage, which was probably an hour ahead of him at the time of the attack, supposed to be about noon. Mr. McDowell came along the next morning, and when about two miles below the scene of the murder he discovered moccasin tracks made apparently by two Indians in crossing the road. Proceeding up the canyon, he found the remains of the wagon, which had been burned; the vegetables were scattered around and the eggs broken. A short distance above the wagon, our informant noticed some blood in the road, and apparently where a scuffle had ensued. Supposing that some one had been killed, and probably not being quite sure of the safety of his own scalp, he passed on over the summit. Meeting the return stage, Mr. McDowell accompanied it back to the spot where the wagon was burned, near which the body of Jarvis was found, stripped naked, but not mutilated—not even scalped. He was shot in the lower part of the abdomen and in the breast. Of course the horses and everything the Indians could appropriate were taken away. The body was put on the stage and taken down to the ferry. We have been unable to learn aught of the history of the unfortunate man. It is supposed that a Chinaman was killed or taken prisoner the same day, as he left Reynold's Creek for Boise City that morning, and has not since been heard of.

[DISPATCHES TO THE OREGONIAN.]

DATES TO MARCH 26.

Washington News.

CHICAGO, March 26.—A *Tribune* special says negotiations concerning the rights of naturalized citizens have been actively pushed with England for a month past. Steps were recently taken to expedite the framing of a treaty. The State Department believes a treaty quite as favorable as that with Prussia will receive the assent of the English authorities.

An important error which occurred in translating the Prussian treaty, has been developed. It makes the treaty more favorable to naturalized citizens than was at first supposed, and applies to all citizens of the German Confederation who have been naturalized, as well as to those who may hereafter become naturalized in this country. It is also intended to cover the five years during which foreigners are waiting for citizenship after their declaration. The Senate Committee on Foreign Affairs will probably take prompt action on the treaty.

NEW YORK, March 25.—The *Herald's* special report that Seward has offered the St. Petersburg Mission to Gen. Banks for confirmation.

The President's veto of the bill to prevent appeals in habeas corpus cases was read in the Cabinet and approved. It will be presented to Congress to-morrow.

There are contradictory reports relative to the Arkansas election. The general opinion of Republicans in Washington is that the Constitution will be defeated, but dispatches from Memphis to-night give the vote of a number of counties which lead to hope that the Constitution has been carried. The Memphis *Avalanche*, however, insists that the Constitution will be defeated by at least eight thousand majority. The election passed off quietly throughout the State.

WASHINGTON, March 25.—The President to-day sent to the Senate his veto of the bill amending the Judiciary Act. The veto is very short. The President approves the first section, which gives collectors of internal revenue power to appeal, in civil actions against them in an official capacity, from the Circuit Court to the Supreme Court of the United States. The second section takes away the appellate jurisdiction from the Supreme Court, in cases of habeas corpus, and this the President declares incongruous and not in any sense germain to the title of the bill, and he thinks it is quite as important that citizens should have the right to appeal in extreme cases to the Supreme Court, as government officers. The right of appeal to the court of last resort he considers of supreme importance. On other grounds he withholds his approval from the bill.

About 500 Germans of both sexes passed here to-day for Virginia. It is said there are pioneers. Over 10,000 such immigrants are to be brought to Baltimore during the year and thence sent to new homes in the South.

The President to-day nominated Commodore James Lanman to be Rear Admiral in place of Palmer, deceased.

WASHINGTON, March 26.—Stewart's bill for the admission of Alabama declares the Constitution submitted February 4th to be the fundamental law, and that the Provisional Governor and the officers then elected shall enter on their duties. The Governor may thereupon convene the Legislature as empowered, to re-submit the said constitution to the qualified electors of Alabama for ratification, and when a majority of the voters shall have ratified it, and the Convention and the Legislature shall have ratified the amendment known as the fourteenth article of the Constitution, Alabama shall be presented to Congress for admission.

NEW YORK, March 26.—The *Herald's* dispatch says: At the urgent solicitation of Secretary Seward, Sumner will endeavor to have the Prussian treaty ratified immediately.

The *Times'* special says: The Postoffice sub-committee has ascertained that the Department does not pay Wells, Fargo & Co. and the railroad besides for carrying the overland mail.

The *Times'* special says: The Senate, in executive session, had up for consideration the Prussian treaty. Several important amendments were pending.

It is said that when the impeachment trial is over, the House Committee on Foreign Affairs will report in favor of an appropriation to purchase Alaska.

The President has nominated Richard F. Miller for Associate Justice for Idaho.

The Committee on Elections are engaged in hearing the Utah contested election case, McGrorty against Hooper. They will probably take definite action to-morrow.

WASHINGTON, March 27.—Mr. Seward sent to the House yesterday the report of Elliott C. Cowdin, one of the Commissioners to the Paris Exposition, on the subject of silk and silk manufactures. It says it is as easy for the United States as for England to immediately supply herself with raw silk. On reaching New York via California, it would be distributed not only among our own manufacturing establishments, but portions would be sent to foreign countries. More especially may the United States be encouraged to prosecute this industry in view of our exemption from the malignant diseases among silk worms in Europe and Havana.

Congressional.

WASHINGTON, March 25.—The House took up the Senate amendment to the bill exempting certain manufactures from internal tax. The committee of Ways and Means recommend non-concurrence in the first and second amendments by the Senate, and concurrence in the third and fourth with an amendment that manufactures hereby exempted, shall pay two per cent. per thousand on sales in excess of $5,000 annually, the sales to be returned and the tax collected monthly. An additional section provides a fine of from $500 to $5,000 and imprisonment for six months to three years for fraudulent distillation of whisky when the market value of spirits are ten cents below the taxes and cost of production, it shall be evidence that the business is carried on fraudulently. It also provides that the market value of whisky being below the tax in any locality shall be *prima facie* evidence that the assessors and collectors of internal revenue in that locality are neglecting their business, and they shall be forthwith suspended and all compensation shall be withheld until they show they have not been remiss in duty.

Schenck explained the nature of the amendments, and moved the previous question. He allowed one hour for debate. Schenck refused to allow them to be considered. Schofield appealed, and the House sustained the first Senate amendment, reducing the tax on petroleum one half. After the debate closed the House concurred in the Senate amendment, reducing the tax on petroleum from 70 to 60 cents, and adopted an additional section for the punishment of whisky frauds, 82 to 57. The bill then passed.

The House took up the bill regulating freight and passenger tariff on the Pacific Railroad and its branches. Pending a motion for reference of the bill, the House adjourned.

WASHINGTON, March 26.—The Senate to-day ratified the North German treaty, relative to emigration and naturalization. The vote was 20 against 8. The treaty was slightly amended, but not in any important particulars. The ground of opposition was that the Confederation might, under its provisions, interfere with emigrants before the full time of naturalization had expired, as Austria did in the Koszta case.

In the Senate Stewart introduced a bill to provide a temporary and provisional government for Alabama. Referred to the Judiciary Committee. The morning hour was consumed in the consideration of the bill relative to the Central Branch of the Union Pacific Railroad when the special order was taken up, being the report of the Committee on rules, which was adopted after considerable discussion.

At the request of the Democratic Senators, the President's message was postponed until to-morrow, with the understanding that a vote would then be reached. The Senate then went into executive session and soon adjourned.

The Senate on the 26th, went into executive session at half past twelve.

Farnsworth, from the Reconstruction Committee, reported back the bill to admit Alabama, with an additional section, providing that the Constitution shall never be amended so as to deprive any citizen of the United States of the right to vote. Neither shall the Constitution herein recognized, be changed so as to allow any person who is excluded from holding office by the fourteenth amendment to the Constitution, until the disabilities imposed by said section shall be removed in the manner therein provided. Congress shall have power to annul any amendment to the Constitution of Alabama or any act of legislature contrary to the provisions of this section.

Farnsworth supported the amendment in a speech of considerable length. He gave notice that he would move the previous question at half past three o'clock to-morrow. Adjourned.

The Senate at half past one resumed legislative business and took up the President's veto. During the discussion, a message was received from the House which modified the Senate and House amendments to the original tax bill. The Senate refused to concur, and a committee of conference was ordered.

After considerable debate, the bill was passed over the President's veto by a strict party vote, 32 to 9. Adjourned.

THE ONIALASKA CANOE.—There is in the audience room of the Department of State an interesting specimen of canoe used by the Onialaska Indians in Russian America. The canoe appears to be made of the skins of some animal, sewed with tendons and stretched over a wooden frame. It is about eighteen feet in length, pointed at the ends, and deep enough to hold in a sitting posture the single occupant for which it is intended. His place is in the middle, and a web, apparently made of fish skin, is intended to be stretched over the hole where he sits to keep out the water there. The double bladed paddle, by which the canoe is propelled, is about eight feet in length and is held in the middle by both hands. Visitors to the region inhabited by the Indians referred to say that the skill with which they manage these canoes, and their courage in fishing enterprises in them far from land on a stormy sea, are wonderful. The canoe is understood to have been sent to Washington by Captain W. A. Howard, of the revenue service.

THE PRESS OF SAN FRANCISCO.—A correspondent of the Owyhee Avalanche who signs himself "J. o." speaks thus racily of the press of San Francisco. Speaking of the Press—what thoughts arise. Visions of lumber, or cheese, a sour cider bale hay and tom tom. The Alta of unbounded sentiments and restricted circulation, is still subscribed and paid for here through fear of that and out of respect for its age. The Bulletin is the same close corporation pretty well gotten up on both sides of the fence, daily that it has ever been from youth to age. But I am told the paper is not what it used to be and I think so too. Nisbet made his will before going down with the Brother Jonathan, but there was no thing a newspaper so much needs that he could bequeath. When there is a national crisis in politics, it gives its readers learned articles on sewerage, the outside land question, &c., until the "editorial correspondent at Washington—Sam [illegible]—says "thumbs up," "down" or time to "wig wag." The Call continues as the faithful companion of the chambermaid, applewoman and other members of that mysterious half of the world of which the other knows nothing about and cares less. The Times has had a hard time of it so far, but gives evidence of renewed life of late. Its voice is not of the grave, but rather gay. Whether it has received an addition of brains or dispensed with some on hand, I can't say; one thing is certain, running a newspaper is more of a trade than nine tenths of the preachers, pettifoggers and pedagogues of the land are willing to acknowledge until they try it on. That positive organ—the Examiner—has stirred up an evening rival in the Dispatch. Both concerns have money and tact to back them, but I would bet on the old dog in this game—say what you please of teaching him "new tricks." Of the scores of other publications that inflict this community, leaving out interior journals of the State—the less said the better. Of those weekly institutions and the like which find their way here from different localities—excepting half a dozen or so—if they contain a local item in a month it is to be attributed to their jealousy of other sections more than to any seeming interest or energy in behalf of their own great slab sided sheets, made up of alternate columns of national nonsense and quack advertisements.

THE AQUEDUCT SCHEME AT VANCOUVER.—The Register says: "From present indications we may reasonably hope that Mr. Louis Meyer's scheme for bringing water to supply the town and garrison from Stangar's Spring will be carried into practical operation, and that at an early day, we sincerely hope that that short-sightedness which has actuated some to set themselves in opposition, [illegible], to anything in the shape of enterprise will be in this case abandoned. It is a much needed and necessary improvement, and besides has the elements of utility and practicability. Three-fourths of the shares have been sold, and it is the intention of the company to push things right along. If their application for right of way across the military reserve is granted (and there is not the least doubt) work will be immediately commenced and pushed forward to completion. Comparatively few obstacles of a topographical character were met with by the surveyors, and from the following statement of altitudes it will appear there exists an abundance of fall. Elevation of station at block house, N W corner of garrison above sea level, 200 feet; elevation at fountain head, 250 feet; difference between the two points, 50 feet; total distance from fountain head to Main street, 20,000 feet.

We glean the above facts from Mr. Louis Meyer, the [illegible], and Mr. Louis Sohns, the surveyor, which are [illegible] omitting decimals. No more needed improvement than this has ever been undertaken in this place, and we sincerely hope that the corporate authorities will do all within their power to remove obstacles to their hasty [illegible], and by extending to the company all reasonable aid that would tend to make it a success. It is expected that everything will be prepared to commence inside of two months.

VANCOUVER ITEMS.—We clip the following items from the Vancouver Register: Master Louis Brant, of this place, has been apprised by a recent letter from Hon. [illegible] Flanders, that his appointment to the Military [illegible] at West Point had been determined on and would be made in June, 1868, one year from which time he will be entitled to admission to the same. The preliminary steps have already been taken for the organization of the Catholic Library Association in this place. We can see no obstacles in the way of such an institution being a success, and regard its inception at this time as auspicious. Squire Smith has had the county and city prisoners engaged for several days lately in putting [illegible] to rights in the Public Square. The result of their labors are quite noticeable already, most all the old [illegible] having been sawed into convenient lengths for moving; the inequalities of the surface have been leveled, and [illegible]ance generally improved. Many of the wives [illegible] of the Order of Odd Fellows of this place have taken the degree of Rebekah within the past week. Thirty dollars were cleared by the ladies and an [illegible] of sport was enjoyed by the gentlemen, on the [illegible] of the supper, at the Pacific House, on Friday last.

PROF. CARDINELL'S BALL.—The complimentary ball given by the pupils of Prof. Cardinell's Dancing Academy, came off at Oro Fino Hall Thursday evening. The attendance was large and the party was one of the most pleasant of the season. Among the company were great numbers of Prof. Cardinell's present and former pupils, and during the evening they performed a new military [illegible] taught them by the Professor, which elicited [illegible], and a request for its repetition. Quite a number of the pupils were very little boys and girls, but they [illegible] the various evolutions with surprising [illegible], showing how thorough had been their instruction. The repetition of the dance was greeted with even [illegible] applause than was its first performance. The [illegible] throughout reflected great credit upon both the [illegible] and the pupils and was an unusually happy affair for the casual party goers. For the benefit of those who may wish to learn the "graceful art," we may state that Prof. Cardinell will continue to give lessons at his Academy.

A BIG CROWD UPON SHORT NOTICE.—Some idea of the [illegible] which prevailed in this city upon the arrival of the delegates from the Union State Convention, and at the ratification meeting, Thursday evening, may be [illegible] from the fact that, upon a notice of not more than three hours, the meeting was by far the largest political meeting ever held in this city. The court room, which will hold twice as many men as any other hall in the city, was crammed full, and this though there were [illegible] of people who did not learn of the change in [illegible], and who supposed the ratification would not take place till Friday evening.

[illegible] AND BEAUTIFUL.—We were shown last evening a pair of beautiful wreaths wrought of hair, wire and [illegible], by a pupil of a lady who is now stopping at the [illegible] Exchange and where she proposes to give instructions to any who may desire to learn the art. The [illegible] contain each a great number of flowers, with leaves, petals, etc., all natural and perfect, composed of vari-colored hair, curiously and ingeniously [illegible] and braided together. One who understands the art of weaving hair in this manner, might make ornaments of almost unlimited variety and beauty.

[illegible] AFFLICTION.—Major M. P. Berry and wife of Salem, went up on the Dalles boat yesterday morning, on the sad mission of interring at that city, an infant son who died on the 24th, at Salem, after a brief illness. This was an only child, and its death was the second shadow which has fallen upon the hearthstone of the afflicted parents. They go to lay their last treasure by the side of [illegible].

CONTRACT TO FURNISH STATIONERY.—The contract to [illegible] the State Department with stationery for the next two years, was awarded on Thursday, to Messrs. Harris & Holman, of this city. There were quite a number of bids, among which were two or three from San Francisco and several from book houses of Portland. The San Francisco bidders, however, upon learning the [illegible] by Messrs. Harris & Holman, withdrew [illegible] without submitting their bids.

GOING BACK TO THE STATES.—Several families, with [illegible], arrived yesterday from one of the upper river [illegible], having started to return "the plains across," [illegible] States. After a short residence in this [illegible], they have concluded that they do not like it as well as the old "stamping grounds." They purpose to go by teams to the terminus of the Union Pacific Railroad and thence by rail.

ANNUAL SCHOOL MEETING.—Mr. L. M. Parrish, Clerk of School District No. 1, has given notice that the annual school meeting will be held on Monday, April 6th for the purpose of electing two Directors and a Clerk and to [illegible] several propositions of considerable interest to tax-payers. The voters of the District should not fail to [illegible] generally.

FIRE ALARM.—The city was startled by a general ringing of the fire bells about ten o'clock yesterday morning, but the alarm turned out very nearly a false one. It came from the upsetting of a kettle of oil upon a stove in a house up town, the fire from which was extinguished [illegible] much damage.

PREPARING TO ISSUE BONDS.—The Record says: "We [illegible] that the Oregon Central Railroad Company (West side) has made arrangements with Mr. Stinson of this city, for printing the bonds for that company. The [illegible] intend to push forward the work on the road as fast as possible."

MEASLES.—There are several cases of measles reported [illegible] children of this city. The disease seems to be prevailing in mild form and as the present is the most favorable season of the year for quick recovery, there is little need to fear or avoid the contagion.

CHEAP LIGHT.—We learn that parties in this city will submit a proposition to the Council, to light the streets with coal oil, at figures considerably less than those heretofore paid to the Portland Gas Light Company.

ARTICLES FILED.—The articles of incorporation of the [illegible] and Portland Ditch Company, of which we made mention a morning or two since, were filed in the office of the Secretary of State on the 25th inst.

[illegible] TO NIGHT.—It will be remembered that Mr. J. H. Stinson will deliver his lecture at Oro Fino Hall this evening, on "The Downfall of our Republic." There should be a good attendance.

BASE BALL PRACTICE.—There will be a meeting across the river this afternoon for the purpose of Base Ball practice. A fine game was played yesterday afternoon.

THANKS.—We are indebted to Mr. F. M. Benton who came passenger by the Continental for San Francisco papers up to the day of the steamer's sailing.

[illegible] TEMPLE I. O. G. T.—On Thursday evening a [illegible] Degree Temple, I. O. G. T., was instituted on the Co[illegible] Degree Temple No. 8.

FOR HARRISBURG.—The P. T. Co. will dispatch a boat this morning, for Harrisburg and intermediate

CITY PRODUCE.—The arrivals of produce yesterday, were as follows: Per Wenat 4 hlf bbls butter, 310 qr sks flour, 1 box salmon, 3 sks green apples and 6,000 feet lumber. Per [illegible] 350 boxes apples, 26 cases and 6 hlf bbls lard, [illegible] dried apples, 1 pkge trees, [illegible] 7 bales woolen goods, [illegible] boxes [illegible]. Per [illegible] 350 gunnies wheat, 202 gunnies oats, 1,120 qr sks flour, 11 sks feed and 134 boxes apples. Per [illegible] 48 bales hay, 117 sks oats and [illegible] feet lumber.

CATTLE FOR THE UPPER COUNTRY.—A large band of cattle were [illegible] yesterday afternoon at the O. S. N. Co.'s wharf for the purpose of being sent up the Columbia river this morning.

NEW GOODS—MERCHANT TAILORING.—Isaac Barman of the firm of Barman Bros. is en route for home by the steamship Continental. He is bringing with him a large stock of [illegible] and furnishing goods which will be opened next Monday. He is also bringing with him a fashionable cutter and several tailors, and immediately upon their arrival will open a first class merchant tailoring establishment.

The Members of the Portland Club are requested to meet at their Room this evening at 7½ o'clock for the purpose of adopting by laws and the election of a governing committee.

Board of Delegates. The Regular Meeting of the Board of Delegates will be held this evening at 7½ o'clock.

HOSTETTER'S
CELEBRATED STOMACH BITTERS!
A Pure and Powerful Tonic,
Corrective and Alterative, of wonderful efficacy in Diseases of the
STOMACH, LIVER AND BOWELS.
PROTECTIVE PROPERTIES.
Prevents Fever and Ague and Billious Remittent Fevers;
Fortifies the System against Miasma and the evil effects of unwholesome water, invigorates the organs of digestion and the bowels,
Steadies the Nerves and tends to Prolong Life.
REMEDIAL PROPERTIES.
Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Sea Sickness,
Cramps and Spasms and all complaints of either sex arising from Bodily Weakness, whether inherent in the system or
PRODUCED BY SPECIAL CAUSES.

NOTHING THAT IS NOT WHOLESOME, GENIAL, and restorative in its nature, enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind; no deadly botanical element, no fiery excitant, but is a combination of the extracts of rare balsamic herbs and plants, with the purest and mildest of all diffusive stimulants.

The weak stomach is rapidly invigorated, and the appetite restored by this Tonic, and hence it works wonders in cases of Dyspepsia, and in less confirmed forms of Indigestion. Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive and secretive organs.

Persons of feeble habit, liable to Nervous Attacks, Lowness of Spirits, and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is conclusive, and from both sexes.

As a Genuine Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated. In cases of Constitutional Weakness, Premature Decay, and Debility and Decrepitude arising from old age, it exercises the electric influence. In the convalescent stages of all diseases it operates as a delightful invigorant. When the powers of nature are relaxed, it operates to re-enforce and re-establish them.

Last, but not least, it is the only safe stimulant being manufactured from sound and innocuous materials, and entirely free from the acrid elements present more or less in all the ordinary tonics and stomachics of the day.
SOLD EVERYWHERE.

G. VENARD,
CHARTRES COFFEE!
Manufactory Established in June, 1851.
STEAM POWER, NOS 625 AND 627 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.
BEWARE OF COUNTERFEITS.
Each package bears the signature of G. VENARD.

How Napoleon Lives

While the [illegible] has outwardly [illegible] royal [illegible] daily life of the [illegible]

In his [illegible] easiest [illegible] men [illegible] dignity [illegible] the high [illegible] cial [illegible] habits [illegible] tem of [illegible] seen him [illegible] uncle [illegible] and German [illegible] table and [illegible] are of the best [illegible] highest excellence [illegible] Napoleon [illegible] markable abstemi[illegible]

The Emperor [illegible] his several rural [illegible] this is, that he has [illegible] his first care [illegible] early when [illegible] of coffee in the [illegible] after dressing [illegible] in the private [illegible] he is staying, usually [illegible] the son, with [illegible] all the time [illegible] of his household [illegible] ing he finds [illegible] isters on affairs [illegible] hour before breakfast [illegible] strong than usual [illegible] sultations with his physicians. The royal breakfast takes place [illegible] and is simply wholesome [illegible] fruit always [illegible] of the articles of food [illegible] seldom takes a short nap after breakfast and the afternoon is taken [illegible] affairs, riding, walking [illegible] ing expeditions.

The great part of [illegible] is concluded in the morning [illegible] Council the Emperor [illegible] silent, rather eliciting the [illegible] ers than giving his own, while the Empress Eugenie, who is always present, gives her opinions earnestly and [illegible] as freely as do the ministers. [illegible] Napoleon, having heard the sentiments of the ministers briefly states his [illegible] and gives directions for [illegible] the policy decided on. [illegible] the most influence with [illegible] Rouher, Minister of State, and this aristocratic and anti-revolutionary statesman is nearly always in accord with the Empress. But the fact remains that the Emperor invariably decides for himself in the [illegible] and if any of his ministers do not like it they are at liberty to retire. [illegible] serious ruptures between [illegible] and her lord, and this was the case when he went into the Italian war in 18[illegible] [illegible] reason to believe that her Majesty was dissatisfied with his recent conduct towards the Garibaldians.

The Emperor takes the keenest interest in the education of his little son the Prince Imperial. He very often presents him to those whom he receives, and with evident pride, and especially does he do this when a deputation of citizens appear before him for any purpose. There is apparently a strong affection between the father and son, and they treat each other with great familiarity, even before others. The Emperor often looks tired and careworn, but never so sad and gloomy as when his little son is suffering from one of those attacks which have of late been so frequent. He is [illegible] of society, and seems to prefer to be either alone or with one or two intimate friends most of the time, yet on the occasion of a grand ball at the Tuileries, he acts the host with unusual dignity and grace.

The Empress on the contrary, though past forty is still gay, extravagantly fond of dress [illegible] show, and always anxious to be surrounded by a brilliant social circle. She has gathered about her, as ladies of her household, [illegible] of the most beautiful accomplished and [illegible] dames of the capital at [illegible] a great deal of time with them. She also has for companionship the members of the Murat-Bonaparte family, some of whom, for instance, the Duke and Duchess de Mouchy, and the Princess Achile and Joachim Murat, are just such gay, fashionable people as she likes to be with. Another marked contrast between the Emperor and the Empress is that while the latter is a very pious and enthusiastic religionist, Napoleon manifests little or no [illegible] in religious matters. Sunday is one of his busy working days, and though the Empress never fails to be present in the Tuileries chapel at the morning matins, her spouse is scarcely ever to be seen there.

The society of the Palais Royal—of which Prince Jerome, Napoleon, and the Princess Clotilde are of course the centers—is entirely separated from that of the Tuileries. Although Prince Napoleon, as near the throne, is always seen with his Imperial cousin on public or state occasions, their private relations with each other are decidedly cool and rare. Prince Napoleon's liberalism and love of American instructions are not at all liked at the palace, and his strong sympathy with Italy has lately still further alienated him from Napoleon III. Of the two Princes Napoleon is vastly the most popular, and his chances for power in France are by no means so poor as one might think.

Of all the Bonapartes he is best liked; he has a reputation for sound sense and honest liberalism and love of country which may give him an excellent turn in the future. The society of the Tuileries, owing to tastes of the Empress, is rather fashionable than intellectual, while Prince Napoleon has gathered about him some of the finest literary and political talent of France. The court circle is waiting in that refined and old family influence which appeared in Tuileries in the time of Louis Philippe, and still more in that of Charles X., and Louis XVIII. the Napoleonic aristocracy is mushroom, a new and upstart one, with which the Bourbon legitimate noblesse will have nothing whatever to do.

Medical and Surgical INSTITUTE.

⁂ *CONSULTATIONS IN ALL CASES FREE*

⁂ *CURES GUARANTEED, OR NO PAY REQUIRED*

⁂ *IN ALL CASES WHERE CONFIDENCE IS REQUIRED THE UTMOST SECRESY MAINTAINED*

The above rules, established by Dr. J. C. Young in 1850, and which have done so much to secure the reputation of this Institute, are still adhered to, affording those in need of medical aid, the certainty of cure and the utmost confidence.

There is nothing of so great importance to the sick as to know where to find a physician whose skill and humanity give assurance of proper and delicate treatment. The Doctor would respectfully call the attention of those of both sexes who are suffering or in trouble to the invariable success that has marked the career of the Institute in the seventeen years of its existence.

It is unnecessary in this connection to enumerate all the complaints treated at the Institute, but the Doctor feels it his duty to call especial attention to that terrible scourge, SEMINAL WEAKNESS, That is sapping with its insidiousness the very life of its victims, in the treatment and cure of which the Institute has earned so enviable a reputation.

READ! READ!

I am aware that by dwelling upon so unlovely a subject as the decay of manly vigor through the loss of the vital principle of life the ignorant may expose [illegible] but the desire to point out to those who [illegible] guish and decay the true cause of their [illegible] great an incentive to be forced into abeyance. [illegible] tended the terrible disease of Seminal W[illegible] one but the practical specialist who devotes his time [illegible] treatment can tell, but its presence can be [illegible] the most inexperienced by noting the following [illegible] Weakness of the back and limbs, feelings, loss of muscular power, nervousness, cold feet or hands accompanied by hot head, of consumption, short breath, flushings of the face, aversion to society, confusion of the mind, loss of nightly emissions, colorless sight, [illegible] least excitement, trembling, palpitation of the [illegible] regular appetite, variable temper, etc.

YOUNG MAN if you experience any of the symptoms enumerated above, pause [illegible] present is the golden moment in which you may [illegible] health and happiness. You may feel strong now, but if you have ever practiced the vice of self-abuse even in [illegible] you have the seeds of weakness [illegible] system and their undermining influence will, sooner or later, dash the fair edifice of your strength to the ground, leaving you a helpless, abject being. It is [illegible] disease that declares itself at once. Therein [illegible] est danger; for while the patient is being [illegible] affection of the Heart, Lungs, Brain or D[illegible] [illegible] he sinks into a general debility that soon adds [illegible] the list of the victims of the terrible disease [illegible] Weakness.

See in the bent form and languishing steps, the [illegible] victim of the fascinating vice. Mark the [illegible] destructive complaint in the hollow cheek and dull [illegible]

Drowsiness is one of the premonitory symptoms [illegible] first it is easily shaken off, but it grows eventually [illegible] great disinclination to pursue his regular business, [illegible] mind becomes apprehensive and restless, nights [illegible] days of depression.

It is the nature of the complaint to [illegible] changes that leave the poor victim but little hope of recovery. In a single instant it may wither your [illegible] hopes and blast your honest aspirations.

Marriage is sought by a natural impulse as a hope of relief. This is an error of the first magnitude, for the system unprepared for the exigencies of the [illegible] suddenly fails and he finds himself in a deplorable [illegible] from which there is but the slightest hope of [illegible] Or if the marriage should result in offspring, they are [illegible] distorted, decrepid and degenerate. This is [illegible] to both sexes, whether married or single, and in all times of life.

Do not delay if you feel any of the symptoms of this terrible complaint, or if your acts have been such as to [illegible] them, but by instant application secure to [illegible] only hope of health and happiness. The Doctor uses no mercury or other deleterious drugs—cures, when taken in time, always guaranteed, and full and proper vigor restored.

The afflicted are assured of every confidence.

PERSONS AFFLICTED WITH VENEREAL.

During the seventeen years since the establishment of the Institute, the number of cases of V[illegible] that have been treated, show a record unsurpassed by any [illegible] the world, and the success that has [illegible] the course of treatment

Without Mercury or other Deleterious Drugs,

Shows conclusively the use of them to be not only uncalled for, but actually dangerous, for it is [illegible] ertial [illegible] that those [illegible] by entering the blood [illegible] the constitution and life.

The Doctor effects a cure in recent cases in a few days, and for [illegible] in curing those of long [illegible] without attracting the patient to such [illegible] draw upon him the slightest suspicion or oblige him to neglect his business, whether in-doors or without [illegible] diet need not be changed. [illegible] always [illegible] no pay required.

IMPORTANT TO FEMALES.

When a female is in trouble or afflicted with [illegible] requiring medical or surgical assistance, the inquiry [illegible] Where [illegible] physician competent to [illegible] of the community [illegible] imperatively [illegible] the fact that he has [illegible] Female Di[illegible] is in all cases [illegible] confidence can be [illegible] free. Cures [illegible] incidental to the [illegible] undivided attention of the Doctor and the most skill [illegible] and faithful [illegible]

To CORRESPONDENTS.—Persons, either male or female [illegible] are often deterred from [illegible] the Doctor because they cannot spare the time nor [illegible] the expense of a visit to the city. To each he [illegible] but a plain statement of the symptoms and take [illegible] the complaint will enable him to [illegible] them so that they can be [illegible] at home. None need [illegible] the communication will be [illegible] the Doctor and will be treated with [illegible] be returned or destroyed.
